Hanging Baskets available in 20 or 24 inch size

**Stainless
Steel Chain &
Hardware**

THE DIVIDER PLANTER

Designed to show off an abundance of color and character to any roadside, Bike Lane/Cycle path, Bridge or retaining wall without “getting in the way”. This self-watering planter has a very small footprint and offers minimal intrusion to any walkway or roadway. Originally designed to be bolted to the top of a Jersey Barrier, the Divider Planter has shown itself to be very adaptable to multiple applications.

Standard Colors & Stone Finishes

Round End Planter	4.00	19.67	74.46
20 In Square Planter	1.03	7.4	28

Soil composition will differ with climate and with your choice of shrubs and flowers. As a general rule of thumb avoid loosely packed soils such as a Store Bought Potting Mix and use a denser soil or Pro-Mix Potting Soil. Use of composted material and mulch is commonly used. A mix that is too lightweight will not wick up the water from the reservoir effectively. Sybertech recommends that planter customers consult a Horticulturist or other Soil Specialist in determining optimum soil composition.

The results are lush, beautiful flowers:
